Explore all possibilities to develop GANIL infrastructure, with its new ESFRI SPIRAL2 facility, in order to ensure its **long-term sustainability** as one of the premiere European research institutes for nuclear physics, interdisciplinary sciences and related applications.

1. Enlarge the present GANIL membership to include academic institutions and private funding partners. This enlargement goes hand-in-hand with a reinforcement of the involvement of the current and future members and academic users of GANIL-SPIRAL2 in the decision-making process and management of the facility.

- 2. Excellence of access to the infrastructure** by optimizing support to the users, access policy, assessment on the cost of access to the facilities and to data, improvement of the performance capabilities as well as exchange and training of personnel with associated partners.
- 3. Innovation:** attract industrial users to GANIL-SPIRAL2. Identified new ideas and topics for technology transfer.
- 4. Strong communication and outreach policy** towards members and funding partners, users and the layman.
