

WP3/Task 3 : Data Management

- Main Goal : producing a Data Management Plan
 - a DMP describes the life cycle of datas :
 - Production, management, exploitation, storage, backup, transfer, sharing, etc.
- Milestones and deliverable
 - MS7 (12 months) : report on Data Management -> Done
 - MS8 (24 months) : assessment on data storage needs -> Ongoing
 - DS3.4 : Data Management Plan -> 36 months
- Interviews
 - The identified risk of lack of answers has been cover with multiple and fruitfull interactions with few motivated physicists from GANIL and IN2P3
- First steps have been achieved
 - Evaluation of the current data organisation, evolution, metadata, scenario, etc.
